Sylvia Lake Association Newsletter

Fall 2005

Shooting the Breeze

Lea E. Dickson, Sylvia Lake Association President

For many of us, spending a few days weeks or summer months at the lake it means idle conversation, relaxing, reading, swimming, boating and fishing. As I sit glancing out the window at the spectacular fall colors of Sylvia, it brings a sense of reflection. The summer season residents have left. The snowbirds are busy packing. The year rounders are making last minute preparations before the first snow falls. Most of the docks and boats are out of the water. Plywood has been placed on the screened porches, furniture has been put underneath the camp, and a handy stack of firewood is placed near the door. The generators have already been put to the test as a result of the September 27th windstorm. It is time for Sylvia to rest. She has had a very busy season.

While preparing for the responsibility of Association President and helping to gather information for the new edition of the Sylvia Lake Book, I read 37 years of Association minutes. The organization is rich in history and it was a terrific experience reading about the wonderful people of the lake who dedicated so much of their time and energy to the preservation and protection of Sylvia Lake and its watershed.

I had no idea that my father, Andy, served as the first secretary and later as vice-president. My mother, Norinne, still holds the distinction of being the longest serving association officer. My

parents were officers in the association for 19 years.

As your new association President, I hope to use my previous experience with water quality concerns. I served as Chair of the Shellfish Commission in Fairfield, CT and as a member of the Fairfield County Soil and Water Conservation District. More recently, I have been asked to represent Sylvia Lake on the St. Lawrence County Water Quality Coordinating Committee.

County resources will be assisting the SLA Board to prioritize issues that may be impacting Sylvia's water quality and helping us identify the steps our community can take.

We hope the Sylvia Lake Breeze newsletter recaptures some of the memorable times of this past summer and provides important news and information.

Have a safe, healthy holiday.
See you in the Spring!

Milfoil Salad, anyone?

Once again, Jonathan Lookwood, (Dave and Faye's son) and his diver friends pulled invasive weeds around the lake on September 17 and 18, 2005. On Saturday, invasive weeds were pulled at Old Beach, Wintergreen Bay, and Hotel Bay. On Sunday, the divers worked off Robinson Point and along the shore of Parker Bay.

Saturday was gloomy and rainy. We had just experienced an overnight torrential downpour that washed out roads in the area and raised the water level of the lake by over a foot. But the sandwiches were made and the divers were ready...and they certainly didn't care if it was raining or not.

Volunteers emerged out of the fog in small boats to scoop the weeds as they floated to the surface. On Sunday, the sun began to shine and it turned into a beautiful day.

Thank you to Dave and Faye Lockwood, Jim Moses, Lynne French, Jeanette Perry, Gary and Linda Scott, Katie and Peter Pistolesi and granddaughter, Tessa, Shari Barnhart, Lea Dickson and Mark Truax.

Providing pontoon boats for the divers and also scooping were Ernie Hutt, Bill and Joanna deLorraine and mom, Gale Ferguson, Sue Emrich, Betsy and Dan Kalina and friend, and Donnie and Shirley Putman.

And a very special thank you to Carole and Tony and all the divers.

Jonathan Lookwood surfaces during this Fall's milfoil harvesting.

Sylvia Lake Dues and Contributions

Annual Dues of the property owners shall be \$10.00, payable to the Treasurer or the lake representatives before September 1st of each year. (Sylvia Lake Association Constitution) Suggested donation to the SWAT/PEST FUND is \$50.00

Thank you to all who have generously given to the Sylvia Lake Association year after year. Your gifts of time and money are what makes our community strong and the success of the Association's programs are dependent upon your support. Since the beginning of the SL Association, in 1968, all property owners have been considered members. Property owners contribute time, money or both. Membership dues and contributions provide essential funding for our Standing and Special Committees.

The Fish and Game Committee is responsible for the water level, beaver control and fish management. Sanitation and Water Quality Committee provides sanitation and sewer education, water testing and monitors factors impacting the purity and safety of the water.

Over the years, the Navigation Committee has conducted swimming instruction, boat safety courses, sailing lessons, water skiing shows, sailing and canoe races. More recently, the Association has had to address the negative impact on our watershed and lake basin from devastating storms, caterpillars and invasive weeds.

Your dues and contributions are essential to provide funding for newsletter mailing, water testing, the Annual Picnic, 911 road signs, concerts, milfoil harvesting, Tour de Camp, Sylvia Lake Online, the Sylvia Lake Book update and other mailings and activities. Many thanks to Mona, who has been our dedicated treasurer since 1998.

Please mail dues and contributions to:
Mona Allen, 130 Jones Road, Gouverneur, NY 13642

Special Events like Concerts, are supported by raffles and other fund raising.

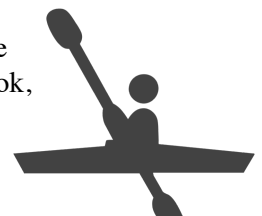

Maybelle Pistolessi and daughter, Mona Allen, enjoy the annual picnic.

Canoe & Kayak • Instruction & Races

Jeff Dickson grew up on Sylvia Lake and is a certified American Canoe Association instructor.

He will be offering canoe and kayak instruction on the July 4 weekend. Jeff has also volunteered to organize and supervise canoe and kayak races.

Assisting with this event will be Alex Perry, Kate and Elissa Cook, and Shirley Putman. If you are interested in helping, contact Lea Dickson.

Book Update 2006 • Sylvia Lake : 1880-1980

The committee has been meeting regularly since the summer. A mailing was sent to all property owners, giving them the opportunity to update their entry in the Sylvia Lake book. We welcome all suggestions. We look forward to receiving the following property updates ASAP.

Bernstein 11 ES	Petrovic 3 HR
Colton 4 WS	Raymond 5 LL

Summary of Sylvia Lake Association Annual Meeting

August 12, 2005

Town Hall, Fowler NY

Account Balance	\$6,093.64
General Fund:	\$1,597.64
Concert 2006:	\$629.00
PEST/SWAT:	\$2,867.00
Book Revision:	\$1,000.00

88 property owners are paid SLA members thru August 2006. 105 property owners contributed to the 2005 **PEST/SWAT Fund**. Mona Allen provided us with a detailed accounting of our finances. Mona has been our trusted treasurer since 1998. We are grateful for her dedication.

Many thanks to Maria McGrath for making and donating another gorgeous quilt for the **Concert Raffle**. Dr. Dodds drew the winning ticket. The SLA took in \$1,369.00 from raffle sales. The winner of the quilt was Nancy Spilman. Mona Allen won the cord of wood. The community appreciates the generosity of Betsy Kalina and Rob Meyer for allowing the concerts to be performed from their dock. Suggestions are being accepted for next years concert.

Approximately 22 people took advantage of the **Boater Safety Course** organized by VP Jeanette Perry and skillfully taught by Navigation Committee Chair and former SLA President, Ralph Undercoffler. Thank you to both for many years of providing this much needed service to the community.

We had great weather for the **Annual Picnic**. 86 SLA members and guests attended. Delicious grilled treats and camper specialties were served. Our many thanks go to our organizers, cooks and go-fers... especially to Gary

and Linda Scott, Randy and Cindy Gadbaw, and Joe and Ann Reilly. T-shirts made by Charlene Oukes were special give aways. Mona Allen has again agreed to chair the event this coming summer.

The **Tour de Camp II** was enjoyed by 23 people and our appreciation is extended to Donna Besaw, SLA Director for organizing the event. Many thanks to Ernie Hutt, Carl and Mary Colton, Dave and Linda Syrek, Dave and Faye Lockwood and Mary Neuroth for generously sharing their camps or homes to the Sylvia Lake Community. The beautiful brochures were designed by Shari Barnhart and printed by Ferguson Printing. If you would like a copy, contact Donna Besaw or go online where it is downloadable.

The **Youth Corps** is still in its organizing stage and its purpose and activities are still in development. The bottle drive has been an overwhelming success with over \$150.00 collected to date. Some campers suggested dockside pick-up. Any youth interested in getting involved should contact our Youth Directors, Alex Perry or David Sleeman.

The **Book Update** Committee has been progressing with the revision. See the report in this newsletter.

Once again, the **Boat Parade** was a favorite. Harland Brown continues to sponsor the event and provide beautiful awards. There were 10 boats and Shari has made available on the web site a special video of the event. This is the 37th anniversary of the SLA boat parade. We want to thank our retiring parade organizers, Andy and Crystal Leonard. Great job!!

Water quality was discussed at length. Rob Meyers has agreed to Chair the Water Testing Committee. The results of the tests suggest that we may have multiple factors impacting the quality of the water. Rob indicated that he had experience working with DEC in Cranberry Lake and would develop a baseline for the lake at ice-out. (the lake is purest at this time) The coliform test is relatively simple and he feels qualified to conduct the tests. Rob was going to check into purchasing "Water-sticks" that can test the water at various depths. It was suggested that we explore the possibility of participating in DEC/Citizen's Statewide Lake Assessment Program available through the NYS Federal of Lake Associations. Lea Dickson indicated that she had joined the organization and would look into the availability of water monitoring training.

The **Beaver Busters** have been active this summer and conducted swamp rat activities to help improve the flow.

Milfoil and other invasive species continue to pose a threat to the lake. Dave and Faye Lockwood have organized the Milfoil III.

Gale Ferguson thanked everyone for their support during his term as President and noted that the sense of community has strengthened as a result of the effort we have made together addressing numerous issues.

The **new slate of officers** was presented by Ann VanSlyke and the nominating committee and the slate was approved.

Once again the Association thanks Shari Barnhart, "Sylvia" for providing

(Sylvia Lake Association Minutes, con't.)

the community with the **web site**. It provides an opportunity for those who love Sylvia to share in her activities even if they are not physically able to be at the lake.

The website has been an invaluable resource for sharing information and has helped the Association communicate with its membership. Betsy Kalina made a motion for a \$300.00 stipend to help defray some of Shari's costs.

Recommended by the **Nominating Committee**, the membership voted to Review the Constitution/ Bylaws and Mission Statement. Many thanks to Ann Vanslyke, Katie Pistolesi and Randy Gadbaw for serving on the committee. It is difficult to say no to Ann. Olive Horning was welcomed as a new member of the committee.

The **Fort Drum** air space was discussed and the lake community will continue to monitor the activities. Gary Scott and Lea Dickson have been serving as the liaison to the Air National Guard Range Tower. Please report any low flying planes over the lake to Lea or Gary and they will call the officers in charge of the range.

Many many **thanks and appreciation to Gale Ferguson** who has dedicated many years to Sylvia Lake monitoring the water flow, busting beavers, improving fishing opportunities, identifying milfoil and providing his fundraising skills that have allowed us to enjoy concerts, and his providing endless print services for the lake community.

Betsy Kalina, outgoing SLA secretary spent countless hours pulling together addresses for the SWAT/PEST Fund mailings at the town hall in Fowler. We owe much of our successful PEST fund drive to her organization skills and time coordinating the mailings.

Faye Hopper, a former President of the SLA just completed her term on the Executive Board. She is valuable resource to the Board and we will continue to rely on her experiences.

— The Meeting was adjourned at 8:45PM —

The Water Level : It's All About the Flow **by Gary Scott**

The cement dam at the outlet of the lake, controls Sylvia Lake's water level. The dam was built by St.

Joe (the mining company) in the late 1960's. Since the 1970's, lake residents have monitored the level of the lake by adding or removing boards in the dam to maintain a consistent flow in spring, summer, and fall. By doing this, the water remains constant even if we have a long dry spell and that helps to keep our lake clean.

Over the years, many, many campers and their kids and relatives have gone down to the dam and beyond to bust beaver dams, remove debris, dynamite (when needed) and canoe or kayak to Harmer's White Talc Road. At Harmer's Road, there are three big tubes that the lake water flows through. They are at 10-12 foot level lower than the lake.

Another big water tube is just down from the cement dam and goes under the railroad track. The mouth of this tube has to be cleaned every couple of years at both ends.

Last year, a group traveled from the lake outlet to Harmer's Road and cut the trees that fell across the stream. They removed old logs, dug the channel deeper in spots, and generally opened the stream bed up as far as the tubes at Harmer's. Once the lake water goes through those tubes, whatever the beaver does, does not effect the level of the lake.

Over the years, the mine companies, D.E.C., Town of Fowler, and caring Sylvia Lakers have helped keep the outlet clear and, as a result, the lake stays as clean as it remains.

Gary Scott doing yoga? ->

Is Sylvia Your Water Source?

Myrna Barney, St Lawrence County Health Department, strongly recommends a filter system be added to your water supply.

(a UV light is highly

desirable) Sylvia Lakers are proud of Sylvia's reputation for its clean, pristine waters, however, she would like all of us to consider this extra measure of safety.

Sylvia is home to many mammals, including beaver and otter. Your intake valve is at risk of contamination by bacteria, virus or fuel spills. Please let an officer or director of the association aware of any known illness as a result of your family or guests drinking or swimming in Sylvia.

2006 Calendars Available

Shari Barnhart has created a 2006 Seasons of Sylvia Calendar. \$2.00 of each sale goes to the Association. It will made available locally and online. Featured photographs have appeared on the SylviaLake website.

The calendar may be purchased online at:
www.sylvialake.org

The Association is also selling the calendars for \$20.00 each plus shipping.

Navigation Law Update

Personal Watercraft - Minimum Age of Operation

On July 28, 2005 Governor Pataki signed a law amending Section 49, Subdivision 1-a of the Navigation Law raising the minimum age of operators of personal watercraft (PWC) to fourteen (14). This new law will take effect January 1, 2006.

However, in order to minimize the impact on riders currently under the age of fourteen (14) certain allowances have been to phase in this new law.

Until January 1, 2009, those operators age ten (10) through thirteen (13) that have a boating safety certificate may continue to operate a PWC if they are accompanied by:

- * someone over 18 years of age and
- * within 500 feet on another personal watercraft or vessel and
- * within sight of the personal watercraft and
- * holding a safety certificate of their own.

A Boating Safety Certificate is a certificate issued by the Commissioner, the United States Power Squadron, United States Coast Guard Auxiliary, or in the case of a non-resident his/her home state or country, as a result of completing a boating safety course.

This law only affects the operation of PWC's. Anyone over the age of ten (10) that holds a boating safety certificate can still operate a motor boat alone.

Constitution and Mission Statement Review

Joel Hopper has offered to Chair the difficult task of examining the SLA Constitution and Mission Statement. The constitution was first adopted December 11, 1969 and has been amended 4 times in the last 37 years. "The Purpose of the Association shall be to preserve, protect, and promote the welfare of Sylvia Lake, its area and environment, for the use and enjoyment of it by the camp and property owners."

Members are encouraged to contact Joel with your thoughts and comments. A report to the Association will be presented at the Annual Meeting in August 2006

Joel Hopper: 562-3486, Email: JoelHopper@TDS.net

Annual Charlie Ferguson Memorial Fishing Derby Results 2005

The Annual Charlie Ferguson Memorial Fishing Derby, established in 1982, was a outstanding success with excellent weather and many families participating. Many thanks to the Corbett camp and Joe Lacks for special gifts for the participants and the Force family for the trophies.

Almost 900 Rock Bass were entered with the Spilman Camp capturing the trophy for most fish with 227 caught on day one. Jimmy Harter of the Orford camp landed the largest bass and his cousin Matthew Orford was the youngest fisherman. Both cousins are avid fisherman, taking after their parents. The Force camp reclaimed two trophies with Sierra leading the trout division and Brittney entering the largest Rock Bass.

Diving Instruction at Sylvia

The Phoenix Scuba dive team is offering to conduct a certification class for those interested in learning scuba diving. Classes will be held at Sylvia Lake next

summer. Contact Carole if you are interested in participating or have questions.
